The Oracle CPQ Cloud 2015 R1 Update 4 document provides a high-level description of the bug fixes included in this update. This document also provides information on supported and certified browsers. For more information on 2015 R1 features, please see the 2015 R1 What's New document.

Hotfixes

Bug ID	Description	Resolution
Integration		
22467874	<p>In 2015 R1, on a site with Federated Authentication Single Sign-On (SSO) enabled, CPQ Cloud incorrectly used the IdP's session timeout value for the IdP's assertion time value and therefore failed to refresh the IdP session if a user was in CPQ Cloud for longer than the IdP's session timeout setting. This caused the IdP session to silently time out while the CPQ Cloud session was still active.</p> <p>In this scenario, if the user in CPQ Cloud invoked an action that would redirect them to the partner system, an error would occur when CPQ Cloud attempted to contact the IdP. This occurred because the user's IdP session had timed out, and as a result of the timeout, the changes made in CPQ Cloud were not saved.</p>	<p>When enabled, a new internal property allows sites with Federated Authentication Single Sign-On enabled to save changes made in CPQ Cloud after the IdP session has timed out. The user will still need to reestablish his/her IdP session after the IdP timeout, but CPQ Cloud data will not be lost.</p> <p>Note: It is best practice to leave this property disabled unless user side work in CPQ Cloud is routinely expected to take longer than the IdP timeout setting.</p> <p>To enable this property, open a ticket on My Oracle Support.</p>
Transaction Manager		
22071888	<p>In 2015 R1, Partner Organization users could not access Transaction Manager Views that were shared by the site's superuser.</p>	<p>Partner Organization users have access to Transaction Manager Views shared by the site's superuser.</p>

Browser Support

CPQ Cloud supports all browser versions that meet the criteria of the Oracle Software Web Browser Support Policy.

Supported Browsers

Windows

- Major releases of **Google Chrome** upon general browser availability until Google no longer supports the version
- Major releases of **Mozilla Firefox** upon general browser availability until Mozilla no longer supports the version
- Major releases of **Internet Explorer/Microsoft Edge** within nine months of general browser availability until Microsoft no longer supports the version

Mac OS X

- Major releases of **Google Chrome** upon general browser availability until Google no longer supports the browser version
- Major releases of **Mozilla Firefox** upon general browser availability until Mozilla no longer supports the version
- Major releases of **Safari** within nine months of general browser availability until Apple no longer supports the version

Android

- Major releases of **Google Chrome** upon general browser availability until Google no longer supports the browser version

iOS

- Major releases of **Safari** within nine months of general browser availability until Apple no longer supports the browser version

If you experience issues using a supported browser version, open a ticket on [My Oracle Support](#) so that the issue can be resolved. If an issue does arise when using a supported browser, a certified browser version can be used until a fix is delivered. Certified browsers are selected based on current market share and are thoroughly tested to work with the current version's standard functionality.

Certified Browsers

Windows

- Google Chrome 47.x
- Mozilla Firefox 41.x
- Internet Explorer 11

Mac OS X

- Google Chrome 47.x
- Mozilla Firefox 41.x

Android

- *Operating System:* 4.4 Kit Kat
- *Browser:* Google Chrome 47.x
- *Screen resolution:* 2560 x 1600

iOS

- *Operating System:* iOS 9.x
- *Browser:* Safari 9.x
- *Screen resolution:* 2048 x 1536

Note: Sites created with additional JavaScript, alternate CSS, or other custom functionality, may no longer be compatible with our supported browsers. Please contact Customer Support to determine if workarounds and minor fixes are available. Add-on work may be required to support customizations.

Training

Please refer to the What's New document for all versions between your current version and the version that you are upgrading to in order to see all new functionality and known issues.

It is strongly recommended that users refer to the help documentation to become familiar with the new features introduced in Oracle CPQ Cloud 2015 R1. For additional help, please see My Oracle Support.

Any information not explicitly mentioned in the release notes as being supported by the software can be verified against the product help for Oracle CPQ Cloud 2015 R1 and/or with the Oracle CPQ Cloud Consulting team.

Disclaimer

The 2015 R1 Update 4 document is provided for high-level informational purposes only and is not intended to function as a specification or to replace the Product Help and/or User Guide. Upgrading to a subsequent release may require Commerce Processes, Configuration, and/or global function settings to be re-deployed. Modifications to integration XML and/or APIs also may be required.

Migration

When migrating from one site to another using the Migration Center, both sites must be on the same major release. Content may only be migrated across minor releases within the same major release. Migration across major releases cannot occur.

- "Major release" = A major product release, e.g. 2015 R1
- "Minor release" = A release update, e.g. 2015 R1 Update 4

Note: Bug ID numbers correspond to Oracle BugDB numbers.
