The Oracle CPQ Cloud 2015 R2 Update 2 document provides a high-level description of the bug fixes included in this update. This document also provides information on supported and certified browsers. For more information on 2015 R2 features, please see the 2015 R2 What's New document.

## Hotfixes

Bug ID	Description	Resolution
<b>Approvals</b>		
22499566	<p>In 2015 R2, a system error would occur when a Transaction was submitted for approval if both of the following criteria were met:</p> <ul style="list-style-type: none"> <li>• Logic within the approvals workflow did not trigger any approval reasons</li> <li>• All approval reasons on the first level of the approvals workflow were marked as "Required in Sequence"</li> </ul> <p>In this scenario, the system error prevented the Transaction from being auto-approved, approval notifications were not sent, and the Transaction's status was not updated.</p>	<p>Auto-approvals work as expected when all approval reasons on the first level of the approvals workflow are marked as "Required in Sequence."</p>
<b>Configuration</b>		
22519596	<p>In 2015 R2, Hiding Rules would not fire as expected when both of the following criteria were met:</p> <ul style="list-style-type: none"> <li>• The Hiding Rule's condition contained one row and specified multiple values within an array-type Single Select Menu attribute</li> <li>• The Hiding Rule's action hid an array-type attribute within the same array as the Single Select Menu attribute in the condition</li> </ul> <p>In this scenario, the Hiding Rule would not fire as expected if one of the values in the condition was selected on the user side.</p>	<p>Hiding rules that meet both of the following criteria fire as expected:</p> <ul style="list-style-type: none"> <li>• The Hiding Rule's condition contains one row and specifies multiple values within an array-type Single Select Menu attribute</li> <li>• The Hiding Rule's action hides an array-type attribute within the same array as the Single Select Menu attribute in the condition</li> </ul>

Favorites		
22657581	<p>In 2015 R2, Configuration Favorites that were created prior to the site's upgrade to 2015 R2 could not be added to Transactions. Additionally, Configuration attribute data and the Reconfigure button were no longer present within Favorite Models created prior to the upgrade to 2015 R2.</p> <p><b>Note:</b> Configuration Favorites that were created after the site's upgrade to 2015 R2 worked as expected.</p>	Configuration Favorites created prior to a site's upgrade to 2015 R2 can be added to Transactions, contain Configuration attribute data, and can be reconfigured.
Migration		
22638163	<p>In 2015 R2, attempting to migrate a Commerce Process would fail if one of the following changes was made to the target site after its upgrade to 2015 R2:</p> <ul style="list-style-type: none"> <li>A new attribute, action, or tab was added to the Commerce layout and the Document View for this new element was changed in at least one Participant Profile.</li> </ul> <p style="text-align: center;"><i>Or</i></p> <ul style="list-style-type: none"> <li>A new Participant Profile was created and at least one Document View was changed within the Participant Profile.</li> </ul>	Changes made to the Document Views of attributes, actions, Commerce layout tabs, and Participant Profiles that were created after a site's upgrade to 2015 R2 do not cause Commerce Process migrations to the site to fail.

## Browser Support

CPQ Cloud supports all browser versions that meet the criteria of the Oracle Software Web Browser Support Policy.

### Supported Browsers

#### Windows

- Major releases of **Google Chrome** upon general browser availability until Google no longer supports the version
- Major releases of **Mozilla Firefox** upon general browser availability until Mozilla no longer supports the version
- Major releases of **Internet Explorer/Microsoft Edge** within nine months of general browser availability until Microsoft no longer supports the version

#### Mac OS X

- Major releases of **Google Chrome** upon general browser availability until Google no longer supports the browser version

- Major releases of **Mozilla Firefox** upon general browser availability until Mozilla no longer supports the version
- Major releases of **Safari** within nine months of general browser availability until Apple no longer supports the version

#### Android

- Major releases of **Google Chrome** upon general browser availability until Google no longer supports the browser version

#### iOS

- Major releases of **Safari** within nine months of general browser availability until Apple no longer supports the browser version

If you experience issues using a supported browser version, open a ticket on [My Oracle Support](#) so that the issue can be resolved. If an issue does arise when using a supported browser, a certified browser version can be used until a fix is delivered. Certified browsers are selected based on current market share and are thoroughly tested to work with the current version's standard functionality.

### Certified Browsers

**Note:** Sites created with additional JavaScript, alternate CSS, or other custom functionality, may no longer be compatible with our supported browsers. Please contact Customer Support to determine if workarounds and minor fixes are available. Add-on work may be required to support customizations.

## Training

Please refer to the What's New document for all versions between your current version and the version that you are upgrading to in order to see all new functionality and known issues.

It is strongly recommended that users refer to the help documentation to become familiar with the new features introduced in Oracle CPQ Cloud 2015 R2. For additional help, please see My Oracle Support.

Any information not explicitly mentioned in the release notes as being supported by the software can be verified against the product help for Oracle CPQ Cloud 2015 R2 and/or with the Oracle CPQ Cloud Consulting team.

## Disclaimer

The 2015 R2 Update 2 document is provided for high-level informational purposes only and is not intended to function as a specification or to replace the Product Help and/or User Guide. Upgrading to a subsequent release may require Commerce Processes, Configuration, and/or global function settings to be re-deployed. Modifications to integration XML and/or APIs also may be required.

## Migration

When migrating from one site to another using the Migration Center, both sites must be on the same major release. Content may only be migrated across minor releases within the same major release. Migration across major releases cannot occur.

- "Major release" = A major product release, e.g. 2015 R2
- "Minor release" = A release update, e.g. 2015 R2 Update 2
