The Oracle CPQ Cloud 2015 R2 Update 4 document provides a high-level description of the bug fixes included in this update. This document also provides information on supported and certified browsers. For more information on 2015 R2 features, please see the 2015 R2 What's New document.

Hotfixes

Bug ID	Description	Resolution
Document Designer		
22951688	If a Document Designer document contained a very large number of elements in 2015 R2, opening the document could take the administrator minutes.	Large Document Designer documents now open much more quickly.
Configuration		
22597162	If array attributes were forced set in 2015 R2, hiding individual values in the array hid all instances of the attribute.	Hiding individual instances of forced set array attributes only hides specified instances.
Commerce		
22967001	Actions that included mobile approvals to an email address with mixed capitalization gave an error in 2015 R2.	Emails are sent regardless of capitalization.
22812676	If a step transition occurred that hid some tabs in 2015 R1 and 2015 R2, the user's tab position could change.	If other tabs are hidden, the active tab is retained on step transition.
General Administration		
22867659	Retrieving large error logs caused environment-wide performance issues.	Error log retrieval is improved to reduce the performance impact of viewing logs.

Browser Support

CPQ Cloud supports all browser versions that meet the criteria of the Oracle Software Web Browser Support Policy.

Supported Browsers

Windows

- Major releases of **Google Chrome** upon general browser availability and until Google no longer supports the version
- Major releases of **Mozilla Firefox** upon general browser availability and until Mozilla no longer supports the version
- Major releases of **Internet Explorer/Microsoft Edge** within nine months of general browser availability and until Microsoft no longer supports the version

Mac OS X

- Major releases of **Google Chrome** upon general browser availability and until Google no longer supports the browser version
- Major releases of **Mozilla Firefox** upon general browser availability and until Mozilla no longer supports the version
- Major releases of **Safari** within nine months of general browser availability and until Apple no longer supports the version

Android

- Major releases of **Google Chrome** upon general browser availability and until Google no longer supports the browser version

iOS

- Major releases of **Safari** within nine months of general browser availability and until Apple no longer supports the browser version

If you experience issues using a supported browser version, open a ticket on [My Oracle Support](#) to resolve the issue. If an issue does arise when using a supported browser, use a certified browser version until a fix is delivered. Certified browsers are selected based on current market share and are thoroughly tested to work with the current version's standard functionality.

Certified Browsers

Windows

- Google Chrome 47.x
- Mozilla Firefox 41.x
- Internet Explorer 11

Mac OS X

- Google Chrome 47.x
- Mozilla Firefox 41.x

Android

- *Operating System:* 4.4 Kit Kat
- *Browser:* Google Chrome 47.x
- *Screen resolution:* 2560 x 1600

iOS

- *Operating System:* iOS 9.x
- *Browser:* Safari 9.x
- *Screen resolution:* 2048 x 1536

Note: Compatibility issues with our supported browsers may exist when sites are created with additional JavaScript, alternate CSS, or other custom functionality. Customizations may require add-on work. Contact Customer Support to determine the availability of workarounds and minor fixes.

Training

To see all new functionality and known issues for the versions between your current version and the version to which you are upgrading, refer to the What's New document.

To familiarize yourself with the new features introduced in Oracle CPQ Cloud 2015 R2, Oracle strongly recommends referring to the Online Help documentation. For additional assistance, please see [My Oracle Support](#).

Verify any information not explicitly mentioned in the release notes as supported by the software against the Oracle CPQ Cloud 2015 R2 Product Help or with the Oracle CPQ Cloud Consulting team.

Disclaimer

This 2015 R2 Update 4 document is provided for high-level informational purposes only and is not intended to function as a specification or to replace the Product Help or User Guide. Upgrading to a subsequent release may require modifications to integration XML or APIs or the re-deployment of Commerce Processes, Configurations, or global function settings.

Migration

When migrating from one site to another using the Migration Center, both sites must be on the same major release. The migration of content can only occur across minor releases with the same major release. Migration across major releases cannot occur.

- "Major release" = A major product release, e.g. 2015 R2
- "Minor release" = A release update, e.g. 2015 R2 Update 4

Note: Bug ID numbers correspond to Oracle BugDB numbers.
