Update Document
Oracle CPQ Cloud
2017 Release 1 Update 5 (2017.1.5)

Table of Contents

The Oracle CPQ Cloud 2017 R1 Update 5 document provides a high-level description of the bug fixes included in this update. This document also provides information on supported and certified browsers. For more information on 2017 R1 features, please see the 2017 R1 What's New document.

Hotfixes

Bug ID	Description	Resolution
Commerce		
23484877	In previous releases, the decimal places for Commerce Float attributes was inconsistent between BML scripts, RESTful services, Web Service SOAP calls, formulas, static default values of attributes, and bulk uploads.	The decimal place limit for Commerce float attributes has been increased from 9 to 16.
Document Designer		
26739337	In 2017 R1, document outputs were distorted when Multi-Language Document Designer documents with tables or images were printed in non-base languages.	Multi-Language Document Designer documents print as expected for any language.

Browser Support

CPQ Cloud supports all browser versions that meet the criteria of the Oracle Software Web Browser Support Policy.

Supported Browsers

Windows

- Major releases of **Google Chrome** upon general browser availability and until Google no longer supports the version
- Major releases of **Mozilla Firefox** upon general browser availability and until Mozilla no longer supports the version
- Major releases of **Internet Explorer/Microsoft Edge** within nine months of general browser availability and until Microsoft no longer supports the version

Mac OS X

- Major releases of **Google Chrome** upon general browser availability and until Google no longer supports the browser version
- Major releases of **Mozilla Firefox** upon general browser availability and until Mozilla no longer supports the version
- Major releases of **Safari** within nine months of general browser availability and until Apple no longer supports the version

iOS

- Major releases of **Safari** within nine months of general browser availability and until Apple no longer supports the browser version

If you experience issues using a supported browser version, open a ticket on My Oracle Support to resolve the issue. If an issue arises when using a supported browser, use a certified browser version until a fix is delivered. Certified browsers are selected based on current market share and thoroughly tested to work with the current version's standard functionality.

Certified Browsers

Windows

- Google Chrome 58.x
- Mozilla Firefox 53.x
- Internet Explorer 11.x

iOS

- Operating System: iOS 10.x
- Browser: Safari 10.x
- Screen resolution: 2048 x 1536

> **Note**: Compatibility issues with the supported browsers may exist when sites are created with additional JavaScript, alternate CSS, or other custom functionality. Customizations may require add-on work. Contact Customer Support to determine the availability of workarounds and minor fixes.

Training

To see all new functionality and known issues for the versions between your current version and the version to which you are upgrading, refer to the What's New document.

To familiarize yourself with the new features introduced in Oracle CPQ Cloud 2017 R1, Oracle strongly recommends referring to the Online Help documentation. For additional assistance, please see My Oracle Support.

Verify any information not explicitly mentioned in the release notes as supported by the software against the Oracle CPQ Cloud 2017 R1 Product Help or with the Oracle CPQ Cloud Consulting team.

Disclaimer

This 2017 R1 Update 5 document contains high-level information and does not function as a specification or replace the Product Help or User Guide. Upgrading to a subsequent release may require modifications to integration XML or APIs or the re-deployment of Commerce Processes, Configurations, or global function settings.

Migration

When migrating from one site to another using the Migration Center or Migration Packages, both sites must be on the same major release. The migration of content can only occur across minor releases with the same major release. Migration across major releases cannot occur.

- "Major release" = A major product release, e.g. 2017 R1
- "Minor release" = A release update, e.g. 2017 R1 Update 5

Note: Bug ID numbers correspond to Oracle BugDB numbers.
